

Short sections to be written in the text (in total about 14000 characters + 1 fig +1 table)

Short introduction

Composition

Preclinical studies – mechanism of action-

Clinical studies

Safety

Applications and dosage

Formulations

Name and contact people

Short company presentation (nutshell)

Table example:

Table 1 Analytical specification of AstaREAL A1010

	AstaREAL A1010
<i>Physical and chemical properties</i>	
Appearance	Red powder
Odour	Characteristic algal
Moisture (%w/w)	3 Max
Ash (%w/w)	4
Heavy Metals (ppm)	< 10.0
Solubility	Insoluble in water
<i>Microbiological properties</i>	
Total viable aerobic count (cfu/g)	< 10.000
Mould/yeast (cfu/g)	< 100
Coliforms (cfu/g)	neg
Salmonella species (cfu/25g)	neg
Staphylococcus aureus (cfu/g)	neg
<i>Chemical composition (Typical values)</i>	
Crude fat (%)	42
Crude protein (%)	10
Carbohydrates (%)	40
DL- α -Tocopherol* (%)	(a)
Silicon Dioxide (%)	2
<hr/>	
Stability	at least 12 months from manufacturing date
Storage	in tightly closed container, in a cool, dark and dry area
<hr/>	

* added as a processing antioxidant before spray-drying the microalga

(a) In AstaREAL A1010 a antioxidant mixture (lecithin, ascorbyl palmitate and dl- α -tocopherol) is added prior to crushing

NB: figures, if any, should be in jpg format – 300 dpi (graph with blank layout) and tables in word
